

## **Victoria Area Association of REALTORS® (Available August 1, 2024)**

We are excited to announce that **VAAR** has launched **FOREWARN** – a new proactive safety app and it will be available to all **Primary and Secondary REALTOR®** members **at no cost!**

VAAR is always looking for ways to enhance and improve our membership benefits, and we know that **SAFETY** is a significant, daily concern for so many of you. When we learned about and investigated FOREWARN, we decided we had to offer this incredible safety service to our REALTOR® members (**at no additional cost**).

Forewarn will not only help our REALTOR® members improve personal safety and efficiency, but it will also benefit their clients, providing an added layer of protection for their homes and families through members' vetting of prospective buyers!

Please visit <https://info.vaar.org>, then click on the Forewarn Safety App button, to learn more about this great benefit. When you are ready, please click on the **Account Request** button to request a Forewarn Account. Once we have processed your account, you will be notified, and you will be provided instructions on how to activate your Forewarn account.

The Training schedule link is also available at this site so you can register for a class on how to use the Forewarn App or watch an on-demand video.

Please contact the VAAR office if you have any questions.
